CONDITIONS OF PACKAGES:

Weather conditions here in Mozambique can sometimes be unpredictable, so there may be cancellations of Ocean safaris. It's with this in mind that Ocean safaris CAN be exchanged for scuba diving should the conditions and group qualifications permit.

Packages are excluding equipment, which includes cylinders and weights. If equipment is needed we have the latest Scubapro equipment available for rent (see [download](#) for pricing and information), which would be payable at the diving centre on completion of your trip. Each boat launch, where two activities are being completed, a DELICIOUS sandwich, lollipops, bananas, biscuits, Water, tea and coffee are provided. There is water provided as standard on all launches.

If there is a cancellation by the shop due to bad weather and we are unable to fit the remaining dives / safaris within the days left, a refund for the said activity will be offered or alternative activities ie, Inhambane/Maxixe tour, quad trails, nitrox course etc. Unfortunately, as the space for a client has been pre-arranged, if a client chooses not to dive on a particular day, they would lose that specific trips' activity. Remaining dives are not interchangeable between parties. If sickness is the reason and the remaining dive cannot be fitted into the time frame, obviously a refund is given - hangovers excluded!

Dive cards and prescriptive dive masks should always be carried in hand luggage. We would hope that all clients have dived within 6 months of arrival and have advanced certifications and above. If open water certified only, no worries, extra courses can be completed at an additional cost.
