AGENT CONSIDERATIONS

DIVING | OCEAN SAFARI | PADI FREEDIVING

COMPLEMENTARY YOGA, SPA SERVICES & SURFING

As an agent we can offer you a 25% discount from the standard price list (download below). Also for every 7 paying guests per trip we can include 1 x guide/client to dive for free.

Other things to consider:

We will invoice you excluding equipment, which includes cylinders and weights. If equipment is needed we have the latest Scubapro equipment available for rent (see download for pricing and information), which would be payable at the diving center on completion of your trip. Single or double tank dives are available throughout the day. Double dives are a great option and include water, a DELICIOUS sandwich, lollipops, bananas, biscuits, tea and coffee. We also spend 1.5 hrs looking as hard as we can for Whale Sharks – a great selling point (complimentary ocean safari on double dives).

If there is a cancellation by the shop due to bad weather and we are unable to fit the remaining dives within the days left, a refund will be offered or alternative activities ie, Inhambane/Maxixe tour, quad trails, nitrox course etc. Unfortunately, as the space for a client has been pre-arranged, if a client chooses not to dive on a particular day, they would lose that specific trips' activity. Remaining dives are not interchangeable between parties. If sickness is the reason and the remaining dive cannot be fitted into the time frame, obviously a refund is given - hangovers excluded!

We are affiliated with a wide selection of accommodation options, dependent on your budget, and all details of these can be found on the following links [lodges](#) | [self catering](#) so please check them out. All contact details are there, and if you struggle to contact anyone, we can do it for you.

Dive cards and prescriptive dive masks should always be carried in hand luggage.

We would hope that all clients have dived within 6 months of arrival and have advanced certifications and above. If open water certified only, no worries, extra courses can be completed at an additional cost.

DIVING | OCEAN SAFARI | PADI FREEDIVING

COMPLEMENTARY YOGA, SPA SERVICES & SURFING

Tofo truly is an amazing place to dive. Our mission is to make every client fall deeper in love with the ocean and diving. Safety is number one on our mission list (followed closely by fun!). Due to possible strong currents and negative entries, we generally try to push a check-dive (shallow site) first. This prepares everyone nicely for the following days deeper sites, but also, it gives the center an idea of the divers comfortability, enabling us to better gauge the service and dive site to the guests needs.

Experience of divers is important to us and, as we all know, diving can be fickle sometimes. That being said we have a few questions that would give us further insight:

- *What level diver are you?*
- *How many dives do you have in total?*
- *The date of your last dive?*
- *Are you familiar with negative entries?*
- *Could you please provide a brief description of how comfortable you are in the water? (For example, any ear issues; how comfortable are you in the water, on a scale of 1-10; is seasickness an issue etc. etc.)*

This gives us a better understanding of your needs so that we can tailor the best diving experience for you.

We do run Instagram & Facebook pages, where you will find daily pictures added, weather updates and a general forum for all things diving in Tofo... our page names are Instagram 'periperidivers' Facebook 'periperi.divers'
